CHRISTINA GANDOLFO

OFF THE WALL

Trompe l'oeil moves into the digital age

◆ LOVE CONCRETE or exposed brick but you're stuck with stucco? The Norwegian company ConcreteWall takes high-resolution photographs of building exteriors and prints them on custom-size vinyl sheets that can transform an entire room. The images are nonrepeating, which adds to the illusion. Resource Furniture in L.A. offers more than 50 concrete and brick options (at \$20 per square foot)—from the crumbled, rust stained, and graffiti tagged to the smooth and unblemished. Just decide if you want your wall raw or refined. > 314 N. Crescent Heights Blvd., Beverly Grove, 323-655-0115 or resourcefurniture.com.
