SUSTAINABLE LUXURY

Crafted exclusively for our Clei wall beds our Luxury Mattress Collection is made in Italy by Magniflex, Italy's largest mattress manufacturer for more than 50 years. Designed to maximize comfort and health, our premium mattresses are made from **100% non-toxic, biodegradable materials**.

- Our Magniflex mattresses are OEKO-TEK® Certified and feature water-expanded foams that eliminate the use of solvents, VOCs and off-gassing. OEKO-TEK is the most prestigious 3rd party laboratory in the industry, and Standard 100 is the highest level of certification for products in direct contact with the skin.
- All Magniflex foams are open-cell and breathable so heat can pass through, unlike other memory foams which are closed-cell and trap heat.
- The expansion process uses water pressure + curing for 10 days, unlike other foams which use petroleum solvents.
- Most styles feature a built-in memory foam topper that acts as a mattress pad and eliminates the need for any additional mattress toppers.

MATTRESS FEATURES

BREATHABILITY

Our Magniflex mattresses are expertly engineered to offer perfect breathability and optimum dissipation of excess moisture and heat, for the ultimate night's sleep.

COVER MATERIAL

- **Medical Natural Comfort Fabric** is an entirely hygienic fiber with an antibacterial and anti-microbial treatment that renders it uninhabitable for dust-mites, moths and bed bugs.
- **Bamboo Fiber** is entirely covered with micro-slits to provide excellent air flow and moisture absorption, ensuring that the body is cool and dry during sleep.
- **Outlast®** is a heat-regulating fabric originally designed for astronauts' space suits. This innovative material absorbs excess heat when the nighttime temperature of the body rises.
- **100% Organic Cotton** is a natural anti-allergen and pleasant to the touch.

PADDING

- **Memoform** has a high-density, open cell structure which allows air to flow freely through the mattress and enables it to react to the weight of the body, rather than heat to adapt perfectly to each contour of the human figure. This feature has beneficial effects on the spine and ensures that body does not sink into the mattress and overheat throughout the night.
- **Geomemory Aloe Vera** is an anatomical material enriched with aloe vera and soy extracts that mold themselves naturally to the contours of the body. Geomemory provides independent support for the head, shoulders, torso, bust, arms, pelvis and legs.

CORE MATERIAL

- **Magnifoam** has a high-density micro-cellular structure. It offers optimal support, elasticity and breathability. Thanks to its different molecular composition, it is available in two versions: **Magnifoam Eliosoft**, which is softer, and **Magnifoam Elioform**, which is more rigid, to meet the need of every customer when it comes to quality of sleep.
- **Eco-green Support Foam** is a techno-natural, flexible and orthopedic material that helps to ensure the correct alignment of the shoulders, the back and the limbs. Its cellular structure, based in water and essential oils, stimulates air flow and keeps the mattress cool and dry.

REMOVABLE COVER

Two of our mattresses are available with removable mattress covers that are suitable for dry cleaning to ensure easy upkeep.

REVERSIBLE

We offer three reversible models, each side with a different level of support providing you and your guest preferred level of comfort for an optimal night's sleep.

DUAL CORE

Magniflex Dual Core provides two separate foam cores that offer different comfort and support levels on each side. Each core can easily be adjusted by unzipping the mattress cover and simply turning over either of the two inside cores, providing the perfect level of comfort on both sides of the bed.

20-YEAR LIMITED WARRANTY

Our premium mattresses are made to last. We offer a 20-year limited warranty on all mattresses. For full terms and conditions, please visit www.ResourceFurniture.com/Mattresses
